Subject: USACE projects in Bridger Valley (UNCLASSIFIED)

Classification: UNCLASSIFIED
Caveats: NONE

Dick,

I have attached an image from the mapping interface of our ORM database that displays the projects as yellow dots, lines, or polygons. Mr. Johnson's number is highlighted on the map. There are two projects that required ARMY authorization on the Black's Fork River upstream of where Sixmile Creek flows in to it.

2012-01174 is a series of Uinta County Road & Bridge Projects
1997-40344 is a pipeline project across the Black's Fork River
1987-40001 is some kind of project that did not require a permit. I was unable to decipher why that was from our database.

There are a lot of projects in an around Mountain View - take a look at the attached map and let me know if there are any other files you would like some information on.
